

Anne VERNIQUET studied general agronomy, oenology and more recently an executive MBA in Entrepreneurship and Innovation management at EPFL and UNIL. Anne has worked 15 years in the development of companies and services to SMEs of any sectors and particularly agri-businesses (Corporate banking, SME's management and sustainability consulting). With a background at the crossroads of economics, ecology and innovation, Anne brings the tools, methodologies and triple bottom line mindset necessary to design models for long term sustainability at various scales: organizations, industrial parks, territories.
