

## *Dingolfing (Bavaria - Germany), 24.01.2018.*

The 2nd Bavarian Symposium on the Use of Harvest Residues in Biogas Plants "Straw, Grass -> Biogas" and organized by C.A.R.M.E.N e.V., took place on January 24, 2018 in Dingolfing. The focus of the event was on the fermentation of straw and fibrous materials, especially on practical aspects.

Michael Böhm from ECOZEPT participated on this event and explained the aims, expected results of the NoAW projects to German stakeholders, which contributed creating awareness about the project and it's Knowledge Exchange Stakeholder Platform.
