Global Challenges & Industrial Competitiveness

(boosting key technologies and solutions underpinning EU policies & SDGs)

Clusters	Implemented through usual calls, missions & partnerships	Budget (€ billion)
Health	Health throughout the life course; Environmental and social health determinants; Non-communicable and rare diseases; Infectious diseases; Tools, technologies and digital solutions for health and care; Health care systems	€ 7.7
Inclusive and Secure Societies	Democracy; Cultural heritage; Social and economic transformations; Disaster-resilient societies; Protection and Security; Cybersecurity	€ 2.8
Digital and Industry	Manufacturing technologies; Digital technologies; Advanced materials; Artificial intelligence and robotics; Next generation internet; High performance computing and Big Data; Circular industries; Low carbon and clean industry; Space	€ 15
Climate, Energy and Mobility	Climate science and solutions; Energy supply; Energy systems and grids; Buildings and industrial facilities in energy transition; Communities and cities; Industrial competitiveness in transport; Clean transport and mobility; Smart mobility; Energy storage	€ 15
Food and Natural Resources	Environmental observation; Biodiversity and natural capital; Agriculture, forestry and rural areas; Sea and oceans; Food systems; Bio-based innovation systems; Circular systems	€ 10
Joint Research Centre	supports European policies with independent scientific evidence and technical support throughout the policy cycle	2021-27 € 2.2

From grand challenges to missions

Political Agenda
Setting and
Civic Engagement

Clear
Targeted
Missions

Portfolio of
projects and
bottom-up
experimentation

5 key criteria for selecting Missions

- Bold, inspirational with wide societal relevance
- A clear direction: targeted, measurable and time-bound
- Ambitious but realistic R&I actions
- Cross disciplinary, cross-sectorial and cross-actor innovation
- Multiple bottom-up solutions

NO separate budget for missions “There will not be a separate budget for missions, though missions will have a budget assigned through the work programme. Missions [...] receive their budget from **more than one cluster**”.

Strategic planning

multiannual WPs + call for proposals + missions + partnerships

Objectives: Transparency and stakeholder involvement; impact maximisation; prioritisation; internal programme coherence; synergies with other programmes

Multiannual Strategic R&I Plan

* Multiannual orientations and priorities in one document

* **Areas** for **partnerships and missions**

The diagram illustrates the process of strategic planning. At the top, a yellow box lists the objectives: transparency and stakeholder involvement, impact maximisation, prioritisation, internal programme coherence, and synergies with other programmes. Below this is a large blue box titled 'Multiannual Strategic R&I Plan'. Inside this box, two bullet points are listed: '* Multiannual orientations and priorities in one document' and '* Areas for partnerships and missions'. Below the blue box is a horizontal bar divided into two sections: 'Strategic discussions with Member States and European Parliament' (light blue) and 'Consultation with stakeholders' (light grey). Arrows point from the left and right towards this bar. A large blue arrow points down from the bottom of the blue box to a dark blue box at the bottom labeled 'Work Programmes'.

Consultation with stakeholders

Work Programmes

EIC: Pathfinder, Accelerator

Two main instruments

.... aiming at

.... implemented by

Making Europe
the world
leader in
breakthrough /
market
creating
innovation
(EIC)

The EIC Pathfinder

- Strengthening the emergence and development of breakthrough science/technology leading to breakthrough / market-creating innovation
- Research and innovation project (usually from TRL 2/3)
- Competitive call for proposals with a bottom-up approach (completed by top-down Inducement Prizes)
- Carried out by a **Single Innovator** (possibly working with a consortium)
- Any legal entity (e.g. University, research organisation, Start-up, SME, Midcap, Corporate, etc)
- Grants (up to (€5) million)
- Outcome: a start-up, a robust business plan based on a breakthrough technology to be implemented by an enterprise (from start-up/spin-off to Midcaps)

The EIC Accelerator

- Accelerating and accompanying the scale-up of enterprises carrying-out breakthrough market-creating innovation
- Development project (usually from TRL 5/6)
- Open call / first-come, first-assessed, first served approach. Direct access for start-ups emerging from the Pathfinder, ERC Proof of Concept, EIT KICs, Global Challenges projects, etc ...
- Bottom-up approach
- Single beneficiary
- Enterprises: start-ups, SMEs, Midcaps
- Direct blended finance (tailor-made mix of grants, debt, equity (from seed to mezzanine bridge))
- Up to (€30) million, possibly in several instalments (milestones)
- Equity finance : co-financing; except strategic reason (i.e. Security)

Nota bene: A beneficiary of the EIC Pathfinder or of the EIC Accelerator may be included in the portfolio of projects of a Global Challenges Mission

New approach to European Partnerships

Partnerships with public or private sector partners can achieve certain Horizon Europe objectives more effectively than the Union alone. A new generation of **objective-driven** and more ambitious partnerships in support of agreed EU policy objectives are planned to be set up.

Key features

- **Simple Simple architecture and toolbox**
- **Coherent life-cycle approach**
- **Strategic orientation**

Co-programmed

Based on MoUs / contractual arrangements; implemented independently by the partners and by Horizon Europe

Replace cPPP?

Co-funded

Joint programme agreed by partners; commitment of partners for financial and in-kind contributions and integration of activities; Horizon Europe makes a financial contribution

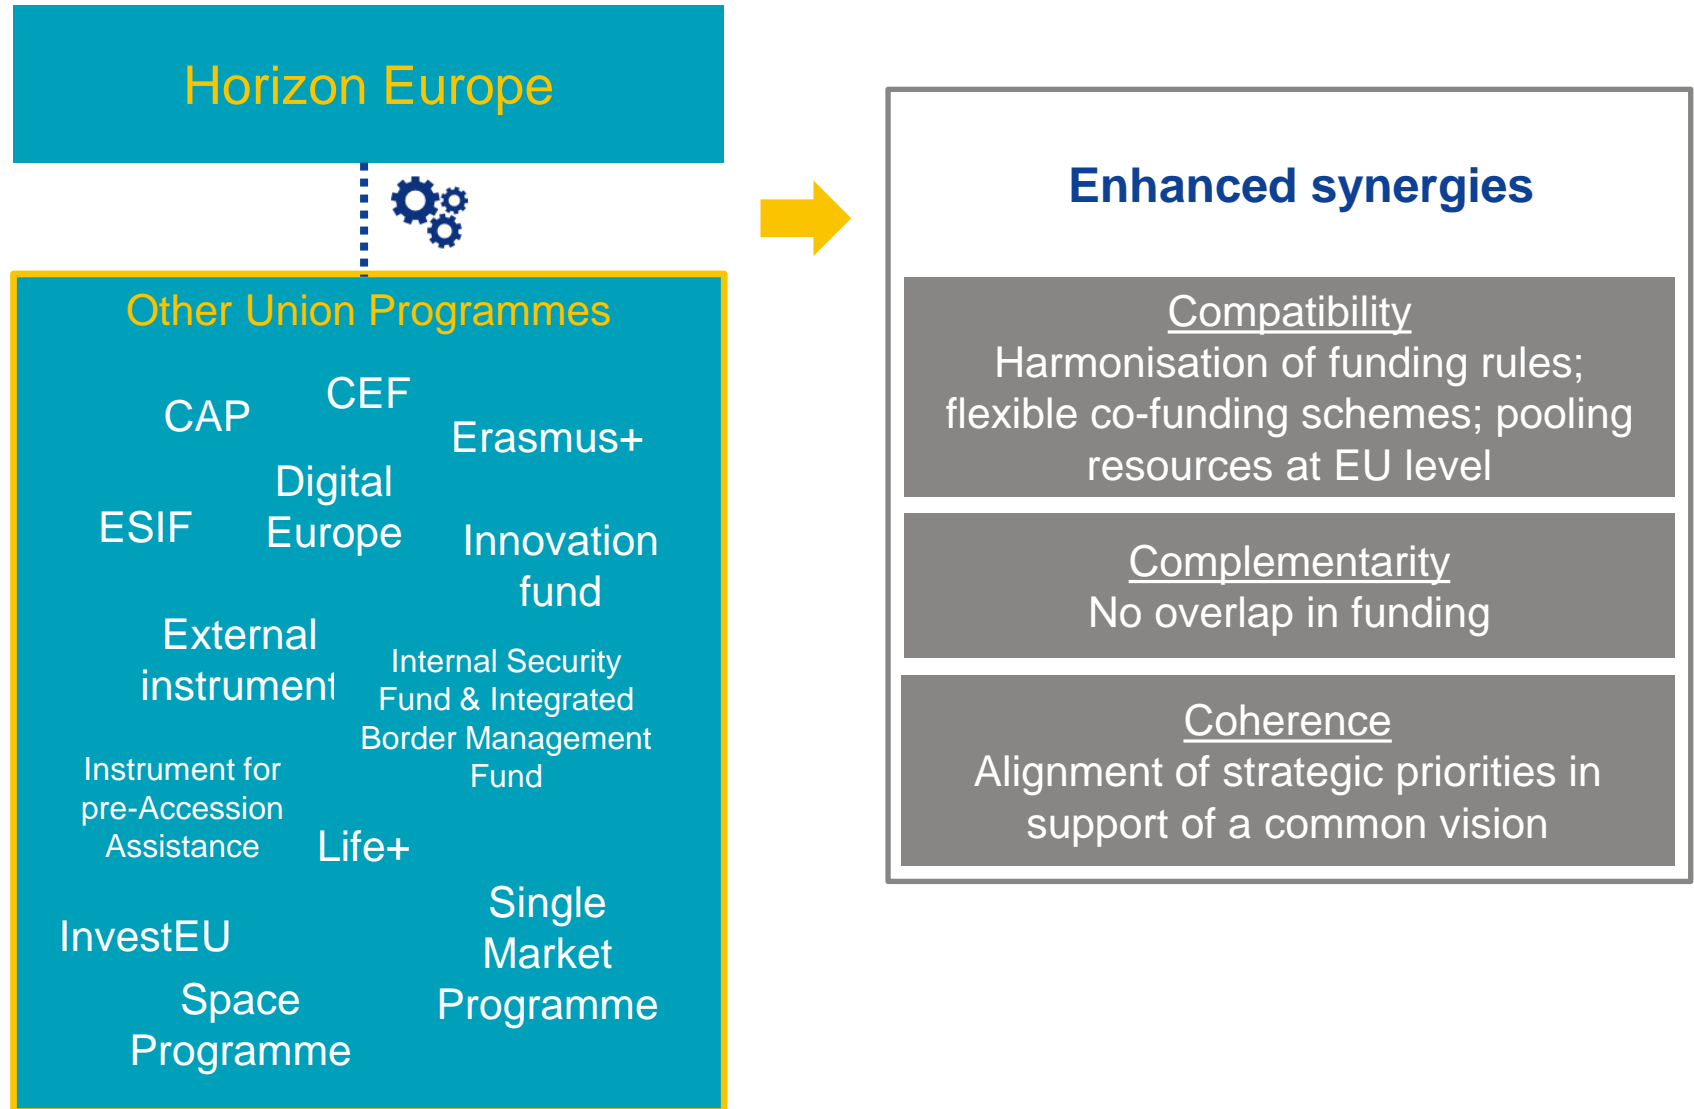

Replace ERA-NETs, JP?

Institutional

Based on long-term dimension and need for high integration, partnerships based on **Articles 185 / 187** of the TFEU and the EIT-Regulation will be set-up and supported by Horizon Europe

Source :EC

Synergies with other Programmes

Towards Horizon Europe

Timeline (EP, CEU)

- EP 10/10 – Second Shadow Meeting
- EP 15/10 - Deadline input from groups on compromise amendments
- CEU 15/10 – informal Competitiveness Council (Missions?)
- EP 18/10 – Third Shadow Meeting
- EP 23/10 – Forth Shadow meeting
- EP 13/11 – Final Shadow Meeting
- **EP 13/11 –Final vote on EU budget / MFF (plenary)**
- EP 14/11 – Figures MFF in HE (plenary 13.11)
- **EP 21/11 – Final vote ITRE on Horizon Europe**
- **EP 28-29/11 – Vote in plenary on HE (mandate confirmed)**
- CEU 30/11 - Competitiveness Council, PGA?
